

CUSTOMER GUIDANCE NOTE

ZeroFlame Fire Protection Simplified - giving Certified Fire Protection for Wood Panels, Timber and Steel products.

Without the need for specialised installers and high costs.

Each ZeroFlame product is intended to be easy to use and certify, while still delivering a fully certified result.

Just follow the ZeroFlame Certification Process:

1. Visit the website www.zeroflame.co and select the product that suits the material being protected.
2. Calculate the quantity required, look for this button:

A red rectangular button with rounded corners and a white border, containing the text 'Calculate The Quantity You Require' in white.

3. Purchase the required product in the correct quantities. Keep your Goodwins receipt safe.
4. Visit your jobsite and apply the product as specified at the correct coverage rates.
5. When the job is completed, visit www.zeroflame.co/certification, select the product being certified and follow the 4 easy steps including uploading your Goodwins invoice. The cost for certification is £10, payable to ZeroFlame.
